Healthcare and Social Assistance employs 13.2% of South Carolina's total workforce — more than the hospitality, agriculture, automotive and aerospace manufacturing industries combined.

Job growth in healthcare and social assistance is projected to increase by 17.2% over the next 10 years.

51,309
Babies Born

There is almost a 1 to 1 multiplier effect, with each job created by a hospital accounting for another job within the local economy.
